

# pdfcraftai sample document

Page 1 of 3

This is a sample PDF you can use to try out any pdfcraftai tool without uploading your own file. Drop this PDF into:

- Merge — add a second PDF + see them combine
- Split — pull out specific pages
- AI Summarize — get a TL;DR
- PDF to Text — extract every word as .txt
- Add Page Numbers — stamp 1, 2, 3 on each page

**Every free tool runs in your browser. Your file never uploads.**

## Sample content (page 2 of 3)

This page contains realistic text density so AI summarize, translate, and other content-aware tools have something to chew on. The content below describes pdfcraftai briefly — what it is, what makes it different.

### What is pdfcraftai?

pdfcraftai is a complete PDF toolkit — over 120 tools spanning everyday operations (merge, split, compress, convert) and AI-powered workflows (summarize, translate, chat-with-PDF, redact sensitive data, extract structured tables). Free tools run in your browser via WebAssembly; AI tools run server-side with credit-based pricing.

### What makes it different?

Privacy-first — client-side execution for any tool that doesn't strictly need a server. Honest pricing — paid credits never expire, refundable for 14 days. Indian-first — INR pricing, GST invoicing, Razorpay rail.

## Try a tool with this sample (page 3 of 3)

Visit [pdfcraftai.com/compare](https://pdfcraftai.com/compare) to see all 12 verb-led intent groups and pick the tool that fits what you want to do.

### Or pick directly from these starters:

- [pdfcraftai.com/tool/merge](https://pdfcraftai.com/tool/merge) — combine PDFs
- [pdfcraftai.com/tool/split](https://pdfcraftai.com/tool/split) — split into ranges
- [pdfcraftai.com/tool/ai-summarize](https://pdfcraftai.com/tool/ai-summarize) — AI TL;DR
- [pdfcraftai.com/tool/ai-chat](https://pdfcraftai.com/tool/ai-chat) — chat with this PDF
